DESCRIPTORS: Steel, Mechanical properties, Manufacturing methods, Machining, Cutting tools, Metal forming presses

Based on the present position of the cold pressing technique an attempt is made to lay down general guiding principles of design for shaped components. By means of ten problems or rules the designer and purchaser of cold pressed components will be made acquainted with the most important principles which meet the particular requirements of this method of production. The (Metallurgy--Ferrous Metals, TT, v. 7, no. 9) (over)
